INTRODUCTION

In today's fast-paced business landscape, staying competitive requires agility, innovation, and a deep understanding of Lean-Agile principles. Welcome to our ebook, where we will take you on a journey through the transformative world of SAFe 6.0 training.

Whether you're a seasoned professional or just starting your Agile journey, our courses – SAFe POPM 6.0, Leading SAFe 6.0, SAFe RTE 6.0, and SAFe Scrum Master 6.0 – will empower you with the skills to drive meaningful change and lead with confidence.

Course 1:

SAFe POPM 6.0 – Mastering Agile Product Management

The SAFe 6.0 Product Owner/Product Manager Training is designed to help product owners and product managers excel in their roles within an Agile environment, specifically in the context of a larger organization. It enhances team productivity by promoting frequent communication, quick decision-making, reduced bottlenecks, increased time-to-market, and continuous improvement.

Unlock the secrets to effective Product Ownership and Management in a scaled Agile environment:

- Dive into the Lean-Agile mindset and SAFe principles
- Craft and manage Program and Team Backlogs for maximum value
- Collaborate with Agile teams to define features and stories
- Drive continuous value delivery through PI Planning and execution
- Elevate your leadership skills as a SAFe Product Owner/Product Manager
- Align product strategy with Lean Portfolio Management for holistic success

The SAFe POPM 6.0 is a 2-day course which can be delivered online or in-person. Upon successful completion of the training and passing the exam, candidates will be awarded the SAFe POPM 6.0 certification. The course outline and lesson delivery typically follows the structure below:

Lesson 1: Exploring product owner and product management roles and responsibilities
Lesson 2: Preparing for PI Planning
Lesson 3: Leading PI Planning
Lesson 4: Executing Iterations
Lesson 5: Executing the PI
Lesson 6: Practicing SAFe

Course 2:
Leading SAFe 6.0 – Embrace Agile Leadership

Crafted for leaders, the Leading SAFe 6.0 course amplifies Agile leadership skills. It instils strategies to align teams, expedite decision-making, cultivate collaboration, and drive a culture of continuous improvement. Leading SAFe 6.0 empowers leaders to steer large-scale Agile transformations for improved productivity and success. Elevate your leadership prowess and guide your organization to Lean-Agile excellence:

- Embrace the SAFe principles and their impact on transformation
- Cultivate a culture of agility and customer-centricity
- Master PI Planning and synchronize multiple Agile Release Trains (ARTs)
- Strengthen your leadership abilities to inspire and lead change
- Navigate the intricacies of SAFe implementation, metrics, and governance
- Champion Lean-Agile transformation as a true leader and change agent.

The Leading SAFe 6.0 is a 2-day course which can be delivered online or in-person. Upon successful completion of the training and passing the exam, candidates will be awarded the SAFe Agilist 6.0 certification. The course outline and lesson delivery typically follows the structure below:

Lesson 1: Thriving in the digital age with business agility
Lesson 2: Building a foundation with Mindset, Values and Principles
Lesson 3: Establishing team and Technical agility
Lesson 4: Building Solutions with Agile Product Delivery
Lesson 5: Exploring Lean Portfolio management
Lesson 6: Leading the change
Lesson 7: Practicing SAFe

Course 3:
SAFe RTE 6.0 – Orchestrating Agile Delivery

The SAFe RTE 6.0 course is tailored for Release Train Engineers. This course equips professionals with the necessary skills to orchestrate Agile Release Trains with precision. It drives efficient cross-team collaboration, streamlined decision-making, optimized time-to-market, and constant improvement for successful scaled Agile implementations.

Become the driving force behind effective Agile Release Train coordination:

- Immerse yourself in the role of the SAFe Release Train Engineer (RTE)
- Foster a culture of collaboration, innovation, and relentless improvement
- Lead PI Planning, ART execution, and Inspect & Adapt workshops
- Tackle impediments, dependencies, and roadblocks head-on
- Nurture high-performing ARTs and teams through servant leadership
- Leverage Lean-Agile practices to optimize flow and value delivery

The SAFe RTE 6.0 is a 3-day course which can be delivered online or in-person. Upon successful completion of the training and passing the exam, candidates will be awarded the SAFe RTE 6.0 certification. The course outline and lesson delivery typically follows the structure below:

Lesson 1: Exploring the RTE Role and Responsibilities
Lesson 2: Applying SAFe Principles
Lesson 3: Organizing the ART
Lesson 4: Planning a PI
Lesson 5: Executing a PI
Lesson 6: Fostering Relentless Improvement
Lesson 7: Serving the ART
Lesson 8: Continuing your Learning Journey
Lesson 9: Practicing SAFe

Course 4:
SAFe Scrum Master 6.0 – Elevate Your Agile Mastery

Geared towards Scrum Masters, this training fosters mastery of Agile practices. It empowers Scrum Masters to enable team productivity, enhance communication, expedite decision-making, and cultivate a culture of continuous improvement, leading to effective Agile delivery.

Advance your Scrum Master skills and amplify your impact on Agile teams:

- Expand your Agile toolkit and embrace servant leadership
- Navigate the complexities of Agile and Scrum anti-patterns
- Guide teams through effective PI Planning and Iteration execution
- Drive continuous improvement through Lean-Agile practices
- Champion data-driven decision-making with Agile metrics
- Elevate your role to support enterprise-wide Agile transformation

The SAFe Scrum Master 6.0 is a 2-day course which can be delivered online or in-person. Upon successful completion of the training and passing the exam, candidates will be awarded the SAFe Advanced Scrum Master 6.0 certification. The course outline and lesson delivery typically follows the structure below:

Lesson 1: Introducing Scrum and SAFe
Lesson 2: Characterizing the role of the Scrum Master
Lesson 3: Experiencing PI Planning
Lesson 4: Facilitating Iteration Execution
Lesson 5: Finishing the PI
Lesson 6: Practicing SAFe

Conclusion

The world of Agile is evolving rapidly, and now is the time to equip yourself with the skills and knowledge to succeed in this dynamic landscape. Our SAFe 6.0 training courses offer a transformative experience that will empower you to drive change, lead with confidence, and master the art of Agile.

Don't miss this opportunity to embark on a journey of growth and discovery. Book our SAFe 6.0 training courses today and become a driving force of Agile transformation in your organization. Your Agile journey starts here!
